- **Web & Research Tools**: Efficient online research using web browsers, Google search operators, Google Scholar
- **Cloud Platforms:** Microsoft Azure, Google Cloud Platform, Amazon Web Services

PERSONAL SKILLS

- Critical thinker; able to evaluate assumptions and make data-driven decisions.
- Adaptable in fast-paced environments; able to prioritize tasks and meet deadlines.
- Strong communication and collaboration skills; able to work effectively with teams.
- Detail-oriented and organized; capable of producing clear documentation and reports.
- Skilled at analyzing processes, identifying challenges, and proposing practical solutions.
- Self-motivated and independent learner; proactively acquires knowledge and improves skills.
- Reflective and self-aware; continuously evaluates work and processes to optimize performance.
- Committed to continuous learning and professional development, with eagerness to expand technical knowledge.

ACADEMIC PROJECTS

Ticket Monitoring System – Saint Louis University
Center for Culture and the Arts (CCA)

- Developing a centralized platform for ticket allocation, sales tracking, and remittance logging to help prioritize event management.
- Conducted research and identified system functions to align with user and organizational needs
- Created documentation and workflow diagrams to support user training and system adoption.

EXPERIENCE

Business System Analyst Trainee
Edufied Pte Ltd *January 2026 – July 2026*

- Gained in-depth understanding of the company's system architecture, modules, user roles, data flows, and business context; conducted requirement elicitation through stakeholder interviews, process walkthroughs, and document analysis.
- Created and maintained system and process documentation, identifying gaps and improvement opportunities, and modeled business workflows to support wireframe creation for clear communication of system functionality and UI behavior.
- Applied Agile practices by actively participating in ceremonies such as stand-ups, backlog refinement, sprint planning, and reviews, ensuring alignment with team objectives and delivery timelines.
- Collaborated closely with Product, Development, and QA teams to clarify requirements, validate delivered features, and contributed to front-end development by learning and applying Vibe Coding.

EDUCATION

BS Information Technology | Saint Louis University *2026*
